2023 ANNUAL REPORT

Our Values:

Responsibility

Service

Integrity

Innovation

Self-improvement

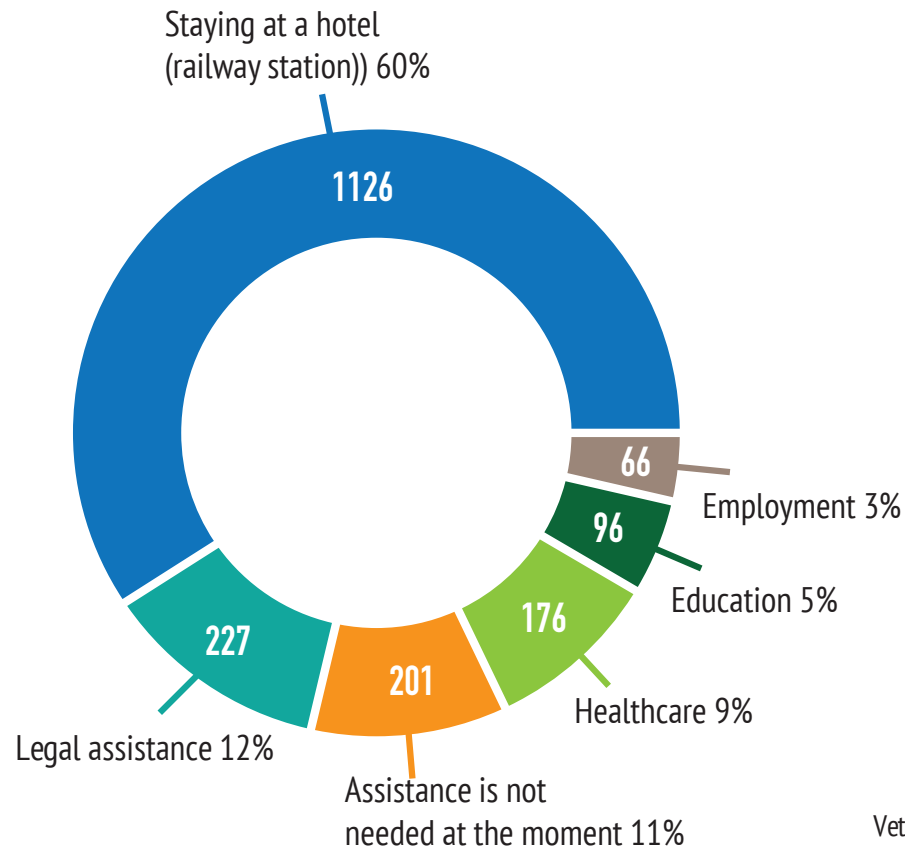

Founded on December 27, 2022, in Ukraine, the veterans' foundation «Pislya Sluzhby» (After Service) is Ukrainian charitable organization aimed at supporting the transition of our servicemen and veterans into civilian life. We work to ensure that Ukrainian veterans thrive «after service». Our primary goal is to improve the quality of life for Ukrainian veterans and reduce instances of suicide among them.

Our work includes psychological support and legal assistance, aid in medical rehabilitation after combat injuries, assistance in finding employment and retraining, with a focus on creating a veterans' community.

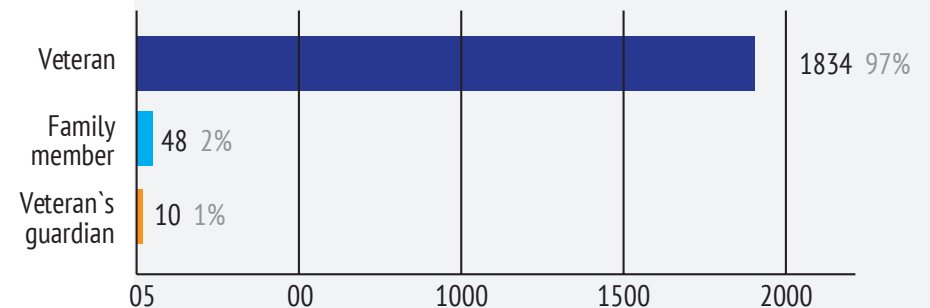

We serve as a bridge, connecting veterans with society and businesses and institutions ready to support them. Our goal is to expand opportunities and prepare those who served our country for their post-war life.

**Together we envision a bright future

Anna, our case manager, is originally from Donetsk. After the occupation in 2014, she moved to Mariupol. During the full-scale invasion she found herself in a blockaded city. To survive she sought refuge in the building of a drama theater. However, the word «CHILDREN» didn't stop terrorists from dropping the most powerful bomb there. Fortunately, Anna and her son managed to leave a day before the tragedy. For the second time she started her life from scratch, this time in Kyiv.

Oleksandr is 33 years old.

While performing combat tasks to defend the Motherland on October 18, 2022, near the village of Davidiv Brid in the Kherson region, he suffered injuries due to mortar shelling (certificate of injury circumstances No. 182/4400 dated October 31, 2022).

First aid was provided at the Mykolaiv Military Medical Clinical Center and surgery on the gunshot wounds, decompression of the spinal cord at the level of C5-C7, was performed. He was evacuated to the Odesa Regional Clinical Hospital. On November 4, 2022, he was transferred to the Military Medical Clinical Center of the South Region and admitted to the neurosurgery department. On November 21, 2022, Alexander was transferred to the rehabilitation department.

Full diagnosis: A) Main: Mine-explosive trauma (October 18, 2022). Gunshot explosive blind penetrating wound of the cervical spine, multiple fractures of the spinous processes and arches of the C5-C7 vertebrae, contusion of the spinal cord of severe degree, condition after surgery (October 18, 2022): surgery on gunshot wounds, decompression of the spinal cord at the level of C5-C7. Firearm contact wounds of the soft tissues of the back. Upper combined deep paraparesis, lower paraplegia, impaired function of pelvic organs.

Artem was an active warrior during his service in the DFTG «Mriya».

However, during the hostilities in March 2022, he suffered severe burns, covering 30-35% of his body.

Upon the recommendation of our partners from «Neopalymi», who were treating his burns, Artem turned to «Pislya Sluzhby» for assistance in acquiring a new profession. Before the war he worked as a chef but due to the injuries received he had to explore a new specialty. He decided to venture into the IT due to the possibility of working in a seated position and remotely.

Initially Artem tried front-end development but he did not like it.

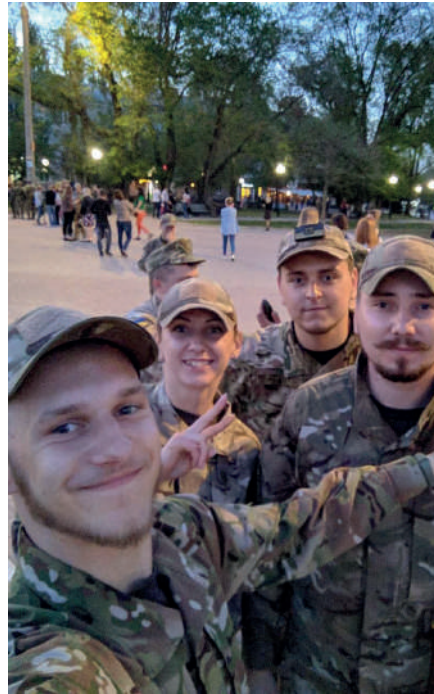

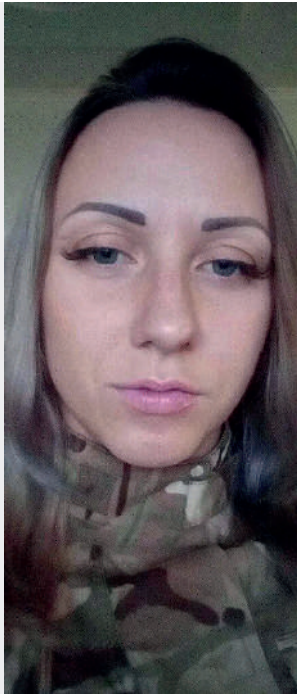

For the second attempt he chose UI/UX design.

We covered the cost of courses at the MATE ACADEMY IT school, which guarantees employment for its graduates.

At just 24 years of age, he is a war veteran. Despite his young age, he participated in the war and has combat injuries. Before the full-scale invasion Oleksiy was a professional musician.

On February 26, 2022 he volunteered for military service, took part in battles in the south-east, sustained combat injuries. On September 15, 2022 he was discharged to care for his disabled mother.

After completing rehabilitation, Oleksiy turned to «Pislya Sluzhby» for assistance with legal matters. Currently he is working with our lawyer.

We also helped Oleksiy to find employment and even after completing his military service, he is dedicating all his efforts and skills to the victory.

Oleksiy has an insatiable thirst for knowledge; he was among the first to register for the software testing and quality assurance group, organized by the Fund.

He is learning English in our courses and practices in our conversation club. He actively participates in other Fund's projects.

Since the beginning of 2023, 10 meetings have been held, with a total of 75 unique visits.

Club «Happy Hours»

The project's goal is to create a community of veterans for mutual support, information exchange, and assistance to each other. Meetings were held once a month in an informal setting, with pizza, contributing to the creation of an atmosphere of trust and support. Partners and friends of the foundation were also invited to such meetings:

- Lawyers (provided individual consultations)
- Psychologists
- Business partners (employment opportunities for veterans)
Partners from organizations providing grants to veterans
- Volunteers, teachers (offered free education/retraining)

Playback Theater

This is not just a theater. In collaboration with «Pislya Sluzhby», actors use theatrical techniques to help war participants and their families overcome trauma and other feelings associated with serving in a combat zone. It serves as an excellent tool for participants to share their emotions and view situations from different perspectives.

In this way, the theater becomes an excellent instrument for supporting veterans and facilitating their return to civilian life.

**Budget -
14 920 UAH
(403\$)**

Art Masterclasses

Art rehabilitation, where various workshops were held every two weeks, aimed at the restoration of individuals. This approach focuses on the creative resources of veterans, provides support, restores internal well-being, and is a crucial component of psychological rehabilitation.

In 2023, approximately 25 workshops were conducted, including:

- Oil painting
- Petrykivsky painting
- Watercolor painting
- Studying ethnic symbols and transferring them to bracelets
- Masterclass with clay
